NIB BASED VIEWCONTROLLERS

# NIB BASED VIEWCONTROLLERS

SUBTITLE

- A storyboard is just a collection of NIB files

- You can still use individual NIB files in a project

  - Easier to work with VCS

  - Separation of tasks

  - ...

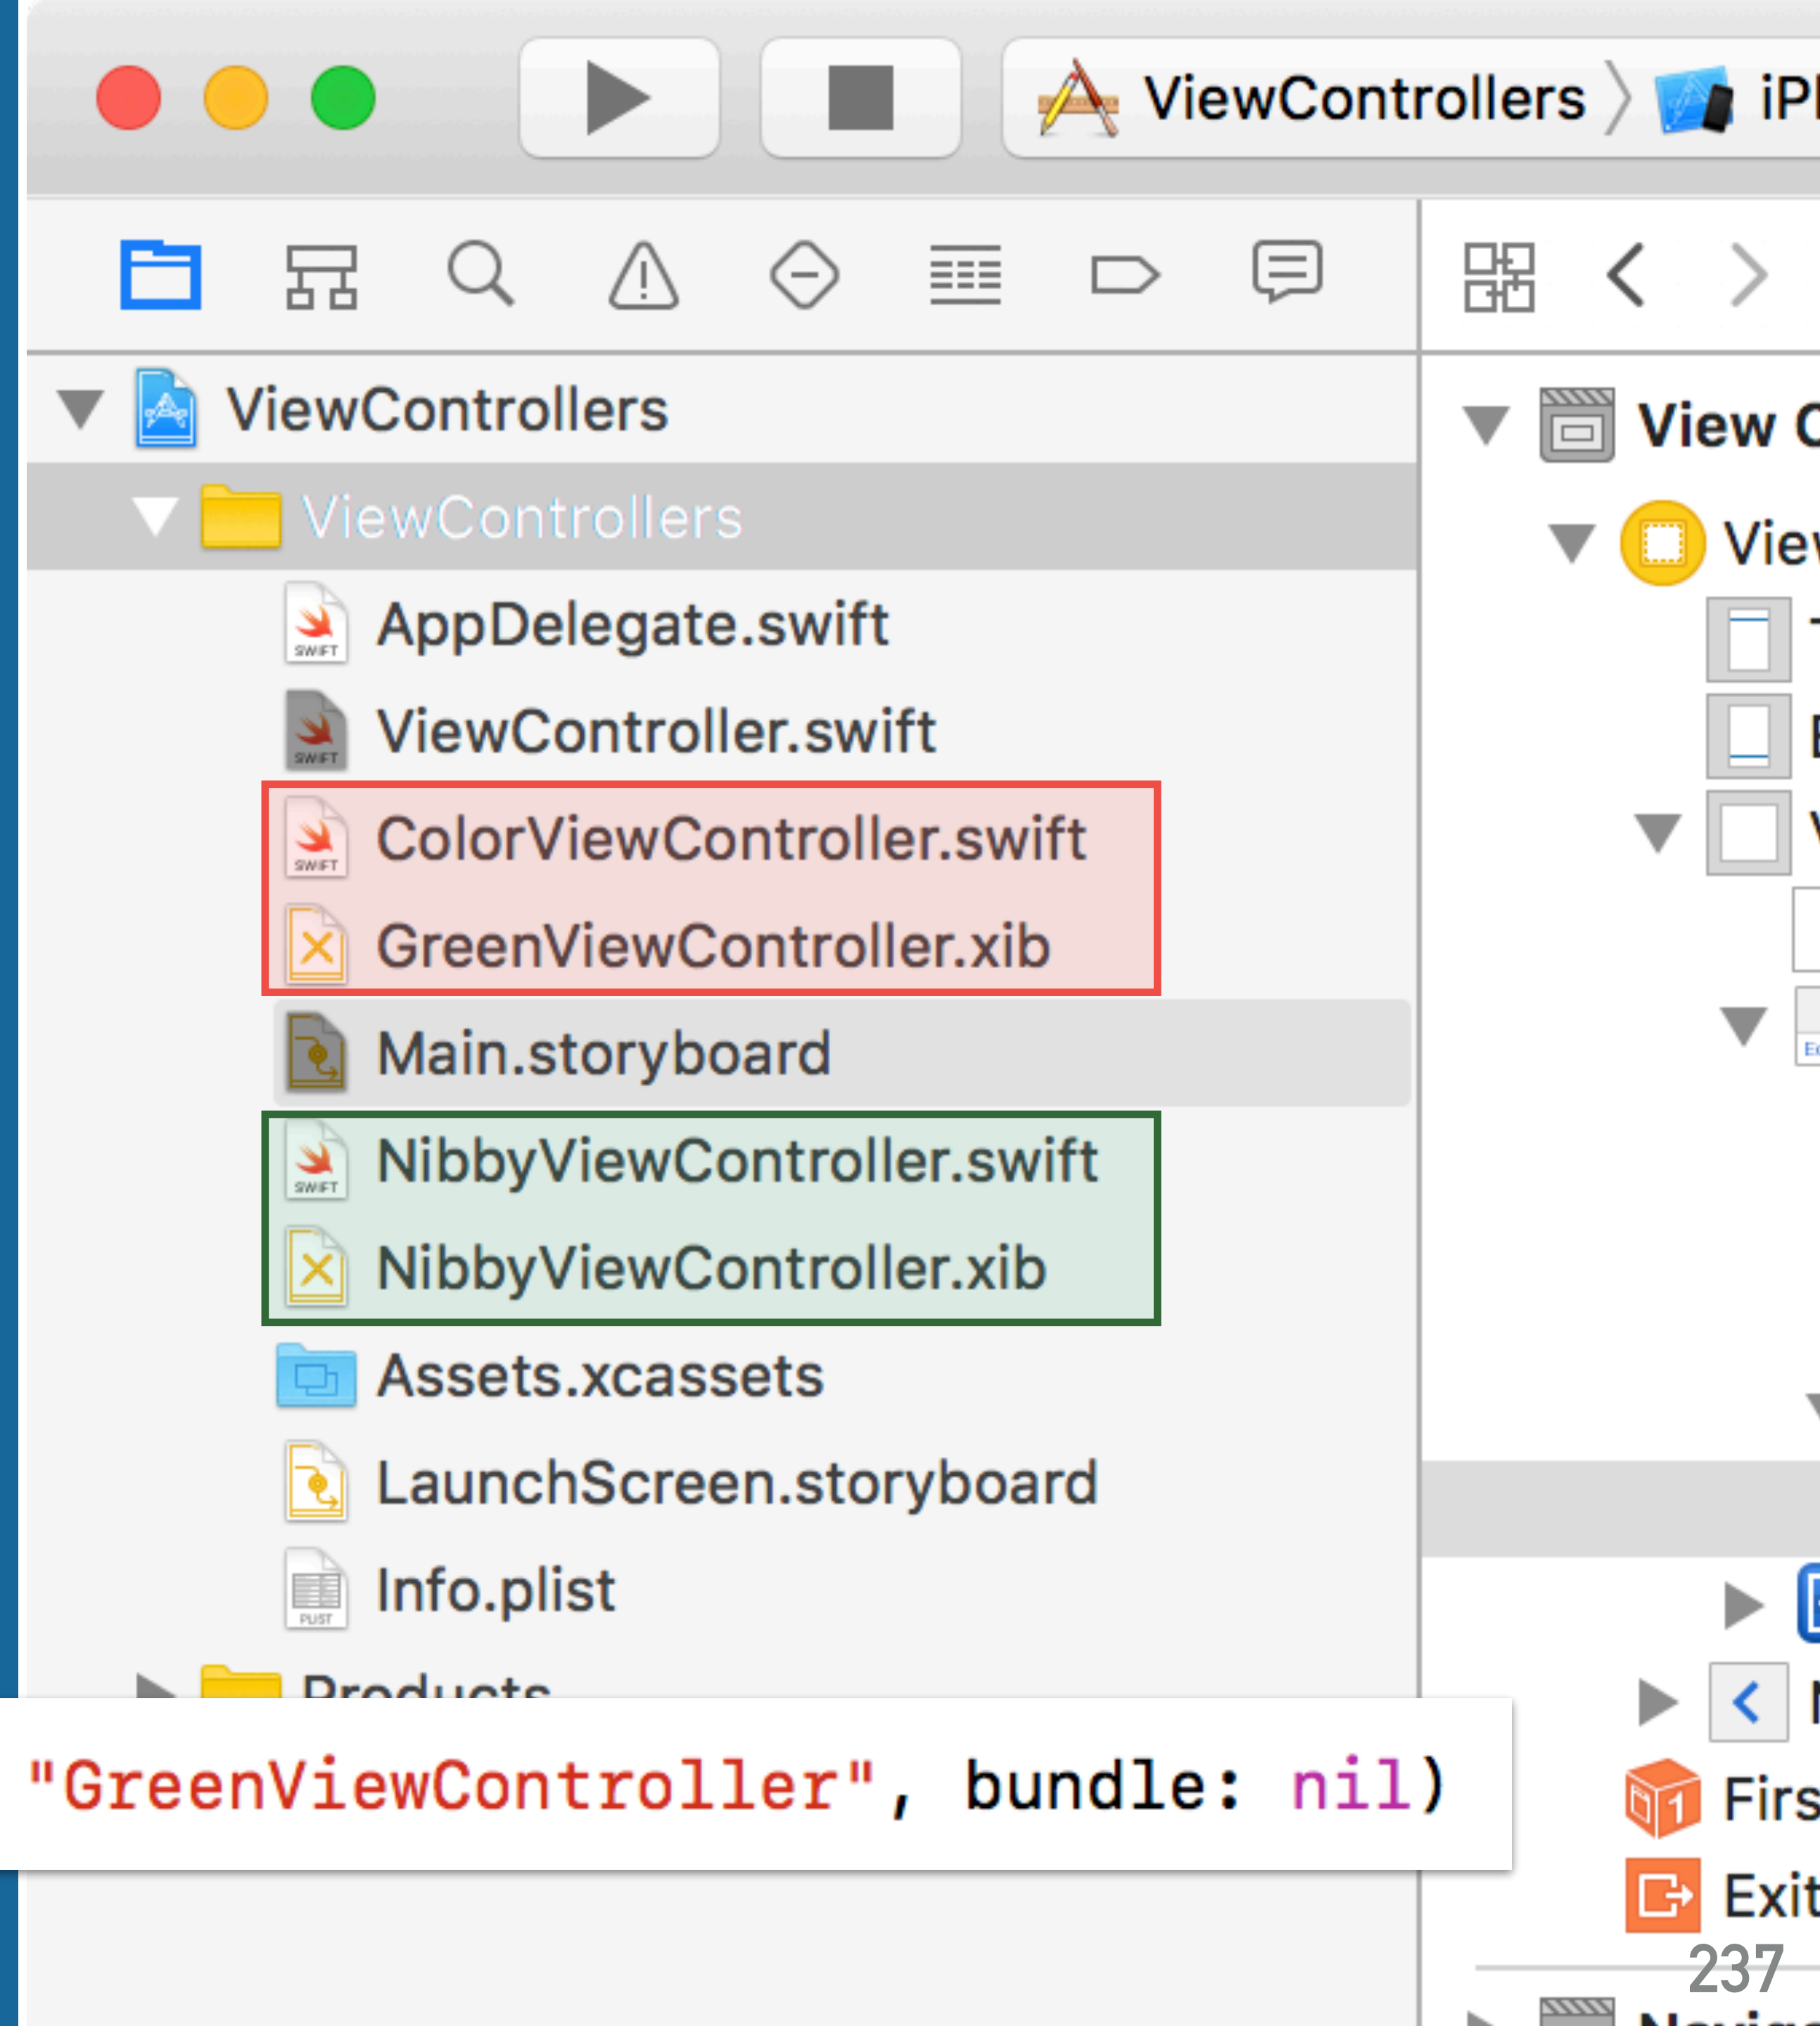

234

NIB BASED VIEWCONTROLLERS

NIB BASED VIEWCONTROLLERS

NIB BASED VIEWCONTROLLERS

SUBTITLE

- Looks for same named .xib and .swift files

```
let vc = NibbyViewController()
```

- You can change the name, but you will have to reference it

```
let gvc = ColorViewController(nibName: "GreenViewController", bundle: nil)
```
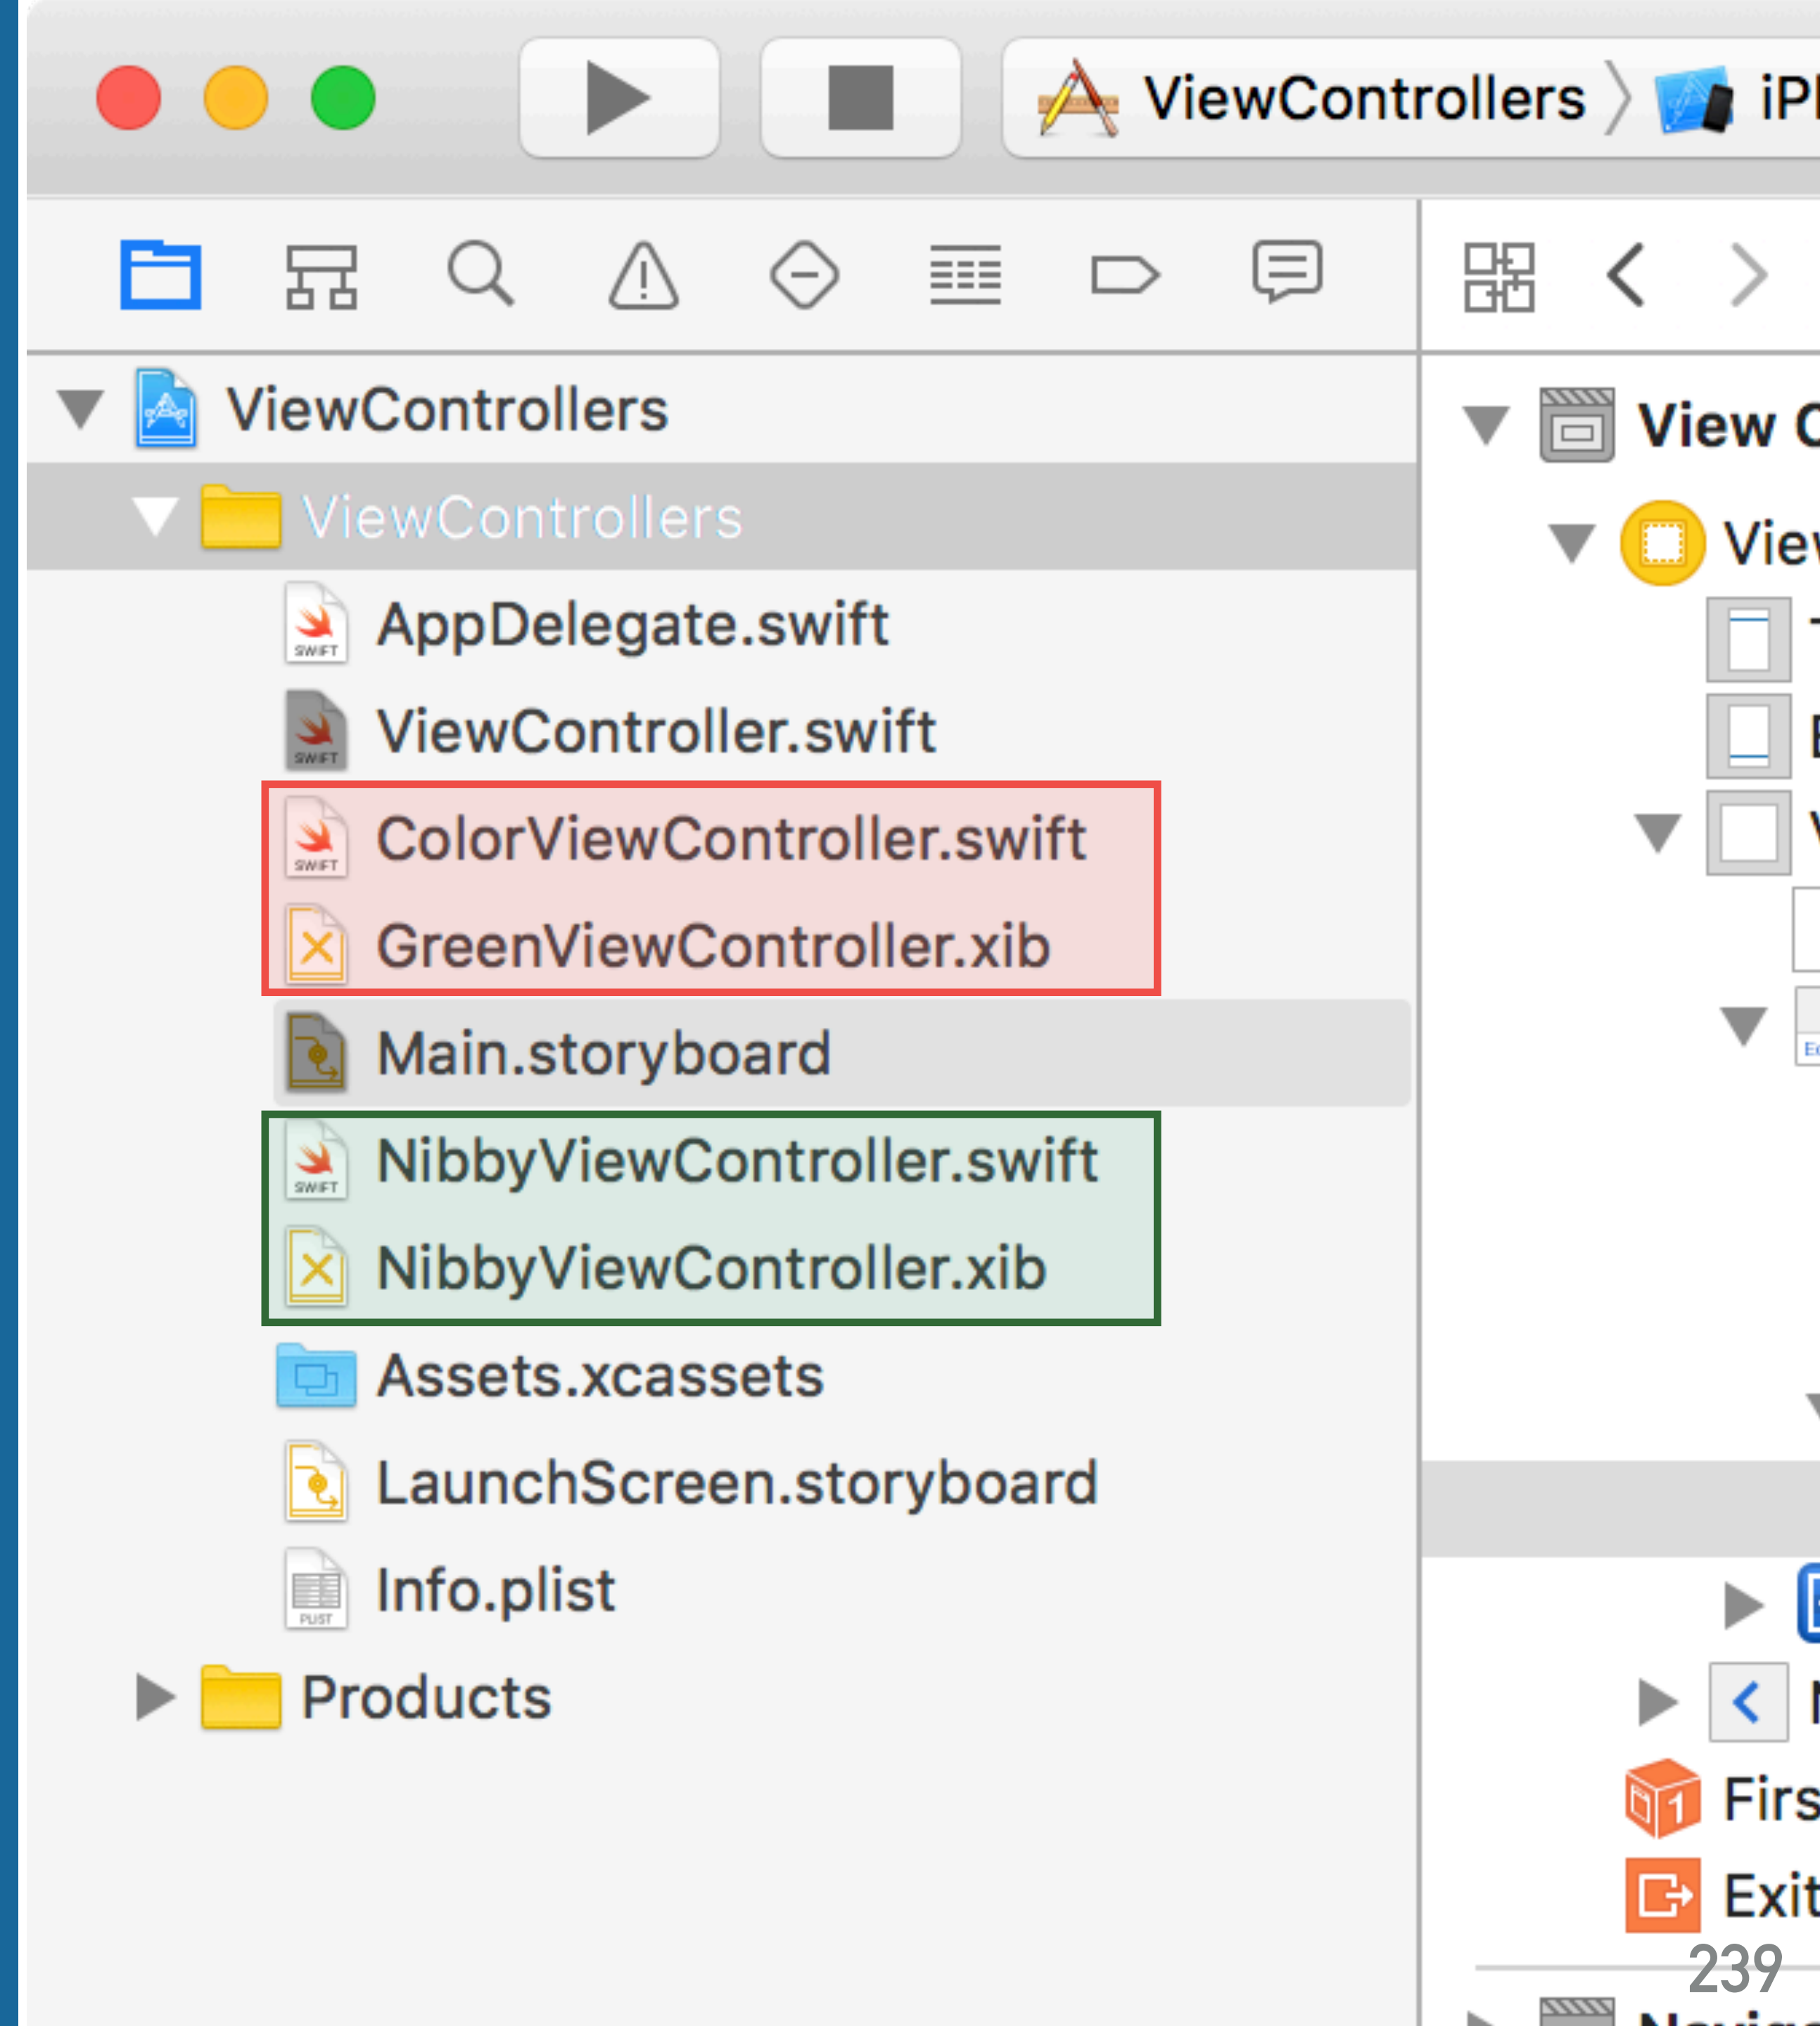

NIB BASED VIEWCONTROLLERS

```swift
let vc = NibbyViewController()
```

```swift
let gvc = ColorViewController(nibName: "GreenViewController", bundle: nil)
```

- Use GreenViewController.nib for ColorViewController class

NIB BASED VIEWCONTROLLERS
SUBTITLE

- Just use it as you would any other view controller

- Pay attention to lifecycle
